SUMMARY

Full Stack Web Developer with a background in Civil Engineering and 7+ years of experience in project management. Skilled in building modern web applications using JavaScript, Vue.js, Node.js, and REST APIs. Passionate about developing scalable and user-friendly applications.

TECHNICAL SKILLS

- Programming Languages: JavaScript (ES6+), HTML, CSS
- Frameworks & Libraries: Node.js, Express, Vue.js.
- Database Management: MongoDB, MySQL .
- Tools & Platforms: Git, GitHub, VS Code, Postman, Netlify, Render
- Development Methodologies: Agile (Scrum),

Civil Engineering Software

- AutoCAD
- Revit Structure
- ETABS
- SAFE
- Autodesk Robot Structural Analysis

WORK EXPERIENCE

Full Stack Web Developer | Graphic Designer | Civil Engineer Freelancer

July 2022 -Present

- Designing and developing full-stack web applications using React, Node.js, and REST APIs
- Creating visual designs, logos, and branding materials using graphic design tools
- Deploying web applications on platforms such as Netlify and Render
- Managing and planning construction project phases and site activities
- Preparing quantity take-offs and engineering calculations
- Coordinating with clients to deliver both technical engineering and digital solutions
- Monitoring project schedules, resources, and cost control

Civil Engineer_Site Engineer Audit Bureau Consultancy

Nov 2019-July 2022

- Supervised construction activities to ensure compliance with project specifications.
- Monitored project progress in terms of time, cost, and quality.
- Implemented corrective and preventive actions to resolve construction issues.
- Coordinated with contractors, consultants, and project stakeholders.
- Assisted in project commissioning and final inspections.

Eng. ABDALMAJEED ABBAS

- Managed construction packages within large projects.
- Supervised contractors and site workers.
- Ensured project completion within schedule and budget.
- Reviewed technical drawings and site reports.
- Inspected construction work for quality and compliance.

PROJECTS

KGL Enterprise System – Full Stack Web Application

- Developed a full-stack enterprise management system using React.js, Node.js, and Express.js
- Implemented user authentication and role-based access control
- Built product and inventory management features
- Designed RESTful APIs for backend communication
- Deployed frontend on Netlify and backend on Render
- Live Demo: Frontend <https://kgl-enterprise-system.netlify.app/login>
- Backend API <https://kgl-system-3.onrender.com>
- GitHub: <https://github.com/mazinahmed2010/KGL-SYSTEM>

Zakatul Fitr Calculator – Web Application

- Developed a bilingual (Arabic/English) web application to calculate Zakatul Fitr based on official Uganda rates
- Implemented dynamic calculation based on number of people and selected food type
- Designed clean and responsive UI for mobile and desktop users
- Applied real-world data from official sources (UMSC)
- Focused on usability and accessibility for a diverse audience
- Technologies: HTML, CSS, JavaScript
- Live Demo: <https://zakatul-fitr-kampala.netlify.app/>
- GitHub: <https://github.com/mazinahmed2010/zakatul-fitr-calculator-kampal-2026>

EDUCATION

Bachelor of Civil Engineering

Oct 2010 -Dec 2015

AL-Zaiem AL-Azhari University_Sudan

Certificate in Software Engineering with JavaScript

Nov 2025 -Mar 2026

Refractory Academy _Uganda

LANGUAGES

Arabic (Native),

English (Basic)

COURSES

Construction Scheduling coursera	Sep 2025
ICDL Certificate (Cyber Security) Engage Consult Limited-Uganda	July 2025
Construction Project Management coursera	Apr 2025
Project Management: The Basics for Success coursera	Dec 2024
Etabs & Safe Newton Training Center	Jun 2022
Manual Design of R.C Structures Newton Training Center	Nov 2021
Autodesk Robot Structural Analysis Astler Training Center	Jan 2021
Revit Structure & Architecture Khartoum Training Center of Engineers	Mar 2018
Autocad Aldanga Academy For Computer Sciences & language	Sep 2012
