SUMMARY

Frontend Developer with hands-on experience building responsive and user-friendly web applications using HTML, CSS, JavaScript, and Vue.js. Skilled in translating ideas into clean, functional, and visually appealing interfaces with a strong focus on usability and performance. Recently completed practical software engineering training at Refactory Academy and built real-world projects including business systems, calculators, and portfolio websites. Also brings a strong background in problem-solving, project coordination, and design from previous professional experience.

TECHNICAL SKILLS

- Programming Languages: JavaScript (ES6+), HTML, CSS
- Frameworks & Libraries: Node.js, Express, Vue.js.
- Database Management: MongoDB, MySQL .
- Tools & Platforms: Git, GitHub, VS Code, Postman, Netlify, Render
- Development Methodologies: Agile (Scrum), waterfall.
- Design: Canva, Adobe Photoshop, Figma.
- Engineering Software: AutoCAD, Revit Structure, ETABS, SAFE, Autodesk Robot Structural Analysis

WORK EXPERIENCE

Frontend Developer | Web Designer

Nov 2025 -Present

Freelancer

- Design and develop responsive web interfaces using HTML, CSS, JavaScript, and React.js
- Build user-friendly layouts with focus on usability, visual clarity, and clean UI
- Create digital assets and visual materials to support branding and product presentation
- Deploy and maintain web projects on platforms such as Netlify
- Collaborate with clients to transform ideas into practical digital solutions

Civil Engineer_Site Engineer

Nov 2019-July 2022

Audit Bureau Consultancy

- Coordinated technical workflows, reporting, and stakeholder communication.
- Managed execution quality, timelines, and project documentation.
- Strengthened organization, planning, and problem-solving skills applicable to software development.

Civil Engineer_Site Engineer

Jan 2016- Sep 2019

Eng. ABDALMAJEED ABBAS

- Supervised execution activities and monitored project requirements
- Reviewed technical drawings and supported implementation planning
- Built strong attention to detail, coordination, and quality control practices

PROJECTS

KGL Enterprise System – Full Stack Web Application

- Developed a full-stack enterprise management system using Vue.js, Node.js, and Express.js
- Implemented user authentication and role-based access control
- Built product and inventory management features
- Designed RESTful APIs for backend communication
- Deployed frontend on Netlify and backend on Render
- Live Demo: Frontend <https://kgl-enterprise-system.netlify.app/login>
- Backend API <https://kgl-system-3.onrender.com>
- GitHub: <https://github.com/mazinahmed2010/KGL-SYSTEM>

Zakatul Fitr Calculator – Web Application

- Developed a bilingual (Arabic/English) web application to calculate Zakatul Fitr based on official Uganda rates
- Implemented dynamic calculation based on number of people and selected food type
- Designed clean and responsive UI for mobile and desktop users
- Applied real-world data from official sources (UMSC)
- Focused on usability and accessibility for a diverse audience
- Technologies: HTML, CSS, JavaScript
- Live Demo: <https://zakatul-fitr-kampala.netlify.app/>
- GitHub: <https://github.com/mazinahmed2010/zakatul-fitr-calculator-kampal-2026>

Authentication UI / Login System

- Built responsive login and registration interfaces with form validation
- Integrated frontend forms with authentication logic and protected user flows
- Focused on simplicity, clarity, and user experience in interaction design
- Technologies: HTML, CSS, JavaScript
- Live Demo: <https://mazinahmed2010.github.io/KGL-logo-Authentication/>
- GitHub: <https://github.com/mazinahmed2010/KGL-logo-Authentication>

EDUCATION

Bachelor of Civil Engineering

Oct 2010 -Dec 2015

[AL-Zaiem AL-Azhari University Sudan](#)

Certificate in Software Engineering with JavaScript

[Refactory Academy Uganda](#)

Nov 2025 -Mar 2026

Software Engineering / Frontend & Full Stack Web Development

Relevant training included:

- Frontend Development with HTML, CSS, JavaScript, and Vue.js.
- Backend Fundamentals with Node.js and Express.
- Git and GitHub collaboration.
- Team projects and practical software development workflows.

LANGUAGES

Arabic (Native), English (Professional Working Proficiency)

COURSES

Construction Scheduling coursera	Sep 2025
ICDL Certificate (Cyber Security) Engage Consult Limited-Uganda	July 2025
Construction Project Management coursera	Apr 2025
Project Management: The Basics for Success coursera	Dec 2024
Etabs & Safe Newton Training Center	Jun 2022
Manual Design of R.C Structures Newton Training Center	Nov 2021
Autodesk Robot Structural Analysis Astler Training Center	Jan 2021
Revit Structure & Architecture Khartoum Training Center of Engineers	Mar 2018
Autocad Aldanga Academy For Computer Sciences & language	Sep 2012
